

Agreement in Lieu of an Erosion and Sediment Control Plan
(For Construction of a Single Family Residence in a Subdivision)

Land-Disturbing Permit #: _____ Subdivision: _____
Building Permit #: _____ Lot Number: _____

Landowner: _____
Address: _____

In lieu of submission of an erosion and sediment control plan for the construction of this single family dwelling, I agree that I will take responsibility to ensure that no erosion occurs as a result of the land disturbing activity related to the construction of the house and that no off site damages occur such as sedimentation to a neighboring property or waterway.

I further agree to comply with any reasonable requirements determined necessary by employees of Prince Edward County, representing the Erosion and Sediment Control Program Administrator. Such requirements shall be based on the conservation standards contained in the Virginia Erosion and Sediment Control Handbook, and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation on or resulting from this project.

The following are stated as a minimum:

- Where construction vehicles access routes intersect paved or public roads provisions shall be made to prevent the transport of sediment by vehicular tracking
- All denuded area on the lot shall be stabilized within 7 days of final grading with permanent vegetation or a protective ground cover suitable for the time of year.
- Measures intended to trap sediment shall be constructed as a first step in any land-disturbing activity and shall be made functional before upslope disturbance takes place.

I further understand that failure to comply with such requirements within three working days following notice by the representatives of Prince Edward County could result in citation for violation of the Prince Edward County Erosion and Sediment Control Ordinance. If a violation occurs then I must correct the violation and provide the name of a Responsible Land Disturber who will be in charges of and responsible for the land disturbing activity. At the time of violation, a complete Erosion and Sediment Control Plan may be deemed necessary.

Signature of Landowner: _____
Party Responsible for Erosion and
Sediment Control (if different from Landowner): _____
