

# PUBLIC NOTICE

## *Survey Work Along Prince Edward County Line with Amelia and Nottoway Counties*

The County of Prince Edward is notifying property owners who have parcels that lie along the Prince Edward County – Amelia County line and the Prince Edward County – Nottoway County line that between January 15, 2024 and April 15, 2024 surveyors from the engineering firm, Hurt & Proffitt, will be conducting field work to survey and establish the location of the legal county boundary as established by the Virginia General Assembly.

This field survey will require surveyors to work along the county line, therefore any owners of land along the line may see surveyors working in the area. No permanent monuments will be established on private property and no damage will be caused to private property. The boundary will be located and permanent monuments will be installed at specific road crossings for future reference.

The Prince Edward County Board of Supervisors believes this work is important and in the best interest of the public. It will also end the uncertainty for voting, taxation, etc. Should you have any questions, please do not hesitate to contact the Prince Edward County Administrator's Office at 434-392-8837.
